

RED FORK OIL FIELDS.

Big Excursion to Be Run There This Month.

In another column of this paper I found the announcement of an excursion to the great oil and gas field lately discovered in the Creek nation at Red Fork, I. T. There has never been any doubt of the wonderful natural resources of the Indian territory, but it had been the proof that it is possibly the richest portion of the United States can be found in the conditions that surround Red Fork.

Red Fork lies at the Junction point of the St. Louis and San Francisco main line from Monette to Oklahoma City, Oklahoma territory and Denison, Texas, and of the Arkansas Valley and Western now being built between Red Fork, and Perry and Enid, Oklahoma territory, and upon which there are now at work over three thousand graders and other people engaged in its construction with the headquarters of the construction company located at Red Fork, I. T.

In and around Red Fork are to be found deposits of lead and zinc ore, cement and lime stone formations, and coal in inexhaustible quantities, what is known as a strip pit having been found at a depth of six feet about two miles from the townsite of Red Fork, having a vein of solid coal forty inches in depth and will be as near a perfect bituminous coal as can be found in the southwest. Besides the coal, oil, gas, cement and lime and zinc ore and lead, there are fine forests of ash, oak, black walnut, white hickory and other hard woods that make Red Fork a natural manufacturing center. In addition to these advantages the company owning and controlling the oil and gas well now in operation at Red Fork are making contracts whereby they agree to furnish gas to manufacturing institutions that locate at Red Fork at a nominal sum for a term of years. Within the past two weeks there have been located under these flattering conditions two large brick and tile plants, a machine shop and a foundry, and other manufacturing institutions are negotiating for sites and fuel.

The industrial department of the great Frisco Railway system has taken charge of the work of securing manufacturing institutions to be located at Red Fork, and there are a number of other institutions that will undoubtedly be located through their efforts at Red Fork in a short time.

The excursion that will be given to Red Fork, will be commenced December 16th and tickets will be sold from all points in Oklahoma and Indian territories and Denison, Texas at one fare for the round trip, tickets good returning December 20th. A special train will run from Oklahoma City to Red Fork on the morning of December 17th, and on December 18th there will be held an auction sale of four hundred town lots in the original townsite of Red Fork, and at this time these lots will be disposed of to the highest bidder and a warranty deed given for each lot to each purchaser.

Red Fork will be illuminated by its own natural gas on the occasion of this sale and complete accommodation will be provided for all who will attend.

For further information see the nearest Frisco Railway agent or address the Red Fork Development company, Oklahoma City, O. T., or Red Fork, I. T.

A Cold Wave.

The forecast of sudden changes in the weather serves notice that a hoarse voice and a heavy cough may invade the sanctity of health in your own home. Cautious people have a bottle of One Minute Cough Cure always at hand. E. H. Wise, Madison, Ga., writes: "I am indebted to One Minute Cough Cure for my present good health, and probably my life." It cures Coughs, Colds, LaGrippe, Bronchitis, Pneumonia and all Throat and Lung troubles. One Minute Cough Cure cuts the phlegm, draws out the inflammation, heals and soothes the mucous membranes and strengthens the lungs.

LOOK OUT FOR CATARRH

The cold-wave flag means zero weather, icy, moisture-laden winds, and the beginning of winter in earnest. To Catarrh sufferers there is nothing cheering in these climatic changes, for with the return of cold weather, all the disagreeable symptoms of Catarrh appear: blinding headaches, dizziness, a stuffy feeling about the nose that makes breathing difficult, chest pains, and as the disease progresses, a discharge of nauseating matter from the throat and nose keeps one continually hawking and spitting.

Catarrh is a most disgusting disease. The foul mucous secretions that are constantly dropping back into the stomach contaminate and poison the blood and it is distributed throughout the body, and it then becomes a deep-seated, systemic, persistent disease that must be treated through the blood, for it is beyond the reach of sprays, washes, powders or external treatment of any kind.

S. S. S. soon clears the system of all Catarrhal matter and purges the blood of the irritating poisons, thus effectually checking the further progress of this serious and far reaching disease.

Look out for Catarrh in winter, for cold stirs the blood and causes excessive secretion of mucus and brings to life all the slumbering poisons that make Catarrh the most abominable of all diseases. S. S. S. keeps the blood in such perfect order that cold waves cause no alarm and the change from the heat of summer to the rigors of winter produce no harmful effects.

Write us if you have Catarrh, and our Physicians will advise you without charge. Look on blood and skin diseases from.

RIPANS

I have experienced a wonderful result in using Ripans Tablets. I was seriously affected with indigestion and heartburn. A friend suggested trying Ripans and I was surprised at the improvement. On making application a few years ago for a policy of insurance I was refused on account of a weak heart, but the same company passed me recently, and I give Ripans Tablets credit for the health I am enjoying. I can certainly recommend them to anyone suffering with palpitation of the heart or indigestion.

At drug stores. The five-cent packet is enough for an ordinary occasion. The family bottle, 50 cents, contains a supply for a year.

The All-American Bowling Trio will be at Vance's alleys Thursday afternoon. Admission 25 and 35 cents. Crack bowlers of the world.
